Greenfield, IN 46140

Hancock County Tourism Commission Board:

The Hancock County Historical Society is extremely grateful for the \$11,625.00 grant that you gave us on October 10, 2017, for a new heating system with air conditioning and electrical upgrade. The total amount of the project came to \$12,009.00.

The society is already looking forward to scheduling more programs and wedding rentals in the summer months. The artifacts in the Chapel Museum will be better protected by the lack of temperature fluctuation which causes damage to the materials. Now, tourists from schools, county, state, and national will be able to view Hancock County artifacts in better condition and the visitors will be more comfortable and willing to come back.

Attendance for historical programs to educate and promote Hancock County during the summer months should rise dramatically. Wedding rentals that will bring in friends and family of the wedding couple from all over the United States should sky-rocket.

This project could not have been possible without your help. We have and will continue to promote the Hancock County Tourism Commission for their generosity at every program, with every tour, and in our publications and promotions. We cannot say thank you enough for this wonderful financial gift that will help us to grow, promote, and educate visitors about Hancock County.

Our sincerest thanks,

A handwritten signature in cursive script that reads "Rebecca Crowe".
