Yes, I can do that work for \$300.

The work would include:

- Redesign The Minutes Section
- Add additional pages to support the years worth of documents (x 7 years)
- Redevelop the main menu to support the archive of months

Projected timeframe: 1 week

Thanks!

Brian

Brian -

I know you have provided this information to me verbally as \$250-300. However, the board wants to see the information from you in an email quote.

Can you confirm in writing that the amount of money you would charge to redesign the Commission Minutes Section would be \$250 - \$300 so that several years worth of documents could live on the site? We would need the section to be broken down in years from 2011 to the present - and within each year it would have each month - like we do currently.

Thanks

Brigette
